

Barcelona, 18-08-2006

Letter of Reference

To whom it may concern:

Mr. Moritz Zeilinger spent an internship of 6 months (27.2.-18.08.2006 = 110 working days) at the Barcelona offices of opus 5 medios interactivos. Moritz was assigned to our Development department. There he independently developed several software projects and collaborated in others. These include:

- Votoo | Independent development of an online voting portal; coding, data base design and technical project management; Web 2.0 application developed in PHP, MySQL and AJAX framework; interesting features like voting graphs, tag clouds, comments
- Weather RSS Feed | Integration of a RSS feed with XML parsing for dynamic weather information, integration into different frontends with flash and smarty templates.
- Rescoweb | Development of a search functionality in a data base for recipes and presentation of results in an HTML page; ASP application with MSAccess and HTML
- Bauhaus | Integration of a newsletter into the corporate Website built with the Typo3 CMS
- Barceloneta Suites | website of vacation apartment company with online booking and advanced business administration features; development of additional features for the administration of client and booking data in PHP, MySQL
- Other work: html editing, picture editing, designs layouts and optimizing images for websites; Photoshop, interface between designer and programmer; maintenance, testing

Moritz was a very productive intern and his presence made a great difference. He was solely responsible for the development work for the important Votoe project (see above) and concluded this work in time and budget and to the complete satisfaction of our client. On this project he applied for the first time in opus 5 the possibilities offered by the Ajax technology. He independently researched an adequate framework and implemented the functionalities with very little guidance. During the project Moritz acquired significant knowledge in the areas of object oriented PHP programming and search engine optimization of code.

opus 5 | medios interactivos

In general, Moritz integrated very well in our international team. He has a friendly and pleasant personality, and was very appreciated as a colleague. Moritz has an excellent level of German, English and good working knowledge of Spanish.

For the final year of his studies and for his future career we wish him all the best. We are sure that he will do well.

Dr. Sebastian Ross

Managing Partner
